PARTNERS GROUP GLOBAL VALUE SICAV

Monthly report as of 28 February 2025

NAV declined by 0.2% in February

- NAV softened amid volatile public markets
- Performance supported by positive revaluation of private equity assets
- · Valuation uplift of United States Infrastructure Corporation
- Exit from TOUS investment
- New secondary investment Project Grizzly

In February, the NAV of Partners Group Global Value SICAV (USD I) softened by 0.2%. This was primarily due to the revaluation of listed holdings in the portfolio, which were impacted by the public market correction during the reporting period. This impact was partially offset by the positive revaluation of private equity assets including United States Infrastructure Corporation, Forterro and Project Smile.

United States Infrastructure Corporation, a US-based provider of underground utility locating services, was the strongest positive value driver for the portfolio in February 2025. This uplift is primarily due to growth in EBITDA. The company's financial performance for the twelve months to 31 January 2025, has benefited from improved operational efficiencies and cost management initiatives. Management continues to focus on pricing strategies, contract optimization, and operational digitalization, among others, to drive further performance improvements.

The Fund fully exited its investment in TOUS at a valuation of more than two times the invested capital, following Partners Group's sale of its 25% stake back to the founding family. TOUS is a leading affordable luxury products retailer founded in 1920 in Manresa, Spain, with over 720 stores in more than 40 countries and employing 4'000 professionals across the world. Since the initial investment in 2015, Partners Group worked with TOUS' management on several initiatives, such as: (i) brand elevation, (ii) international expansion, (iii) business professionalization, and (iv) digitalization, successfully developing its e-commerce platform and building a full omnichannel customer experience. Through these efforts, TOUS has enjoyed strong topline growth together while significantly shifting its mix of business activities on the back of outsized growth in digital sales and direct distribution channels.

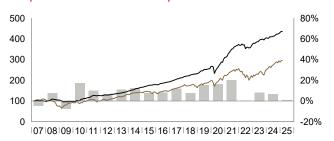

The Fund also invested in Project Grizzly which represents Partners Group's acquisition of LP interests in funds managed by Vector Capital, a private equity firm specializing in technology investments, focusing on undervalued or challenged companies. With over 20 years of experience, the company acquires firms at below-market multiples and drives value through operational improvements. Notably, Project Grizzly was acquired at an attractive entry point of 22% discount compared to the reference NAV, valuing the portfolio at a weighted average valuation multiple of 9.9x.

This Fund might restrict outflows in the future.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of the net asset value. These percentages may be lowered further (limited to a maximum of 2 consecutive years) if this is deemed in the best interest of the Fund. In certain circumstances redemptions may also be suspended.

Partners Group Global Value SICAV is a Luxembourg-based investment fund organized as a SICAV Part II with the objective of obtaining attractive returns and achieving capital growth over the medium and long term by investing in private equity. It provides investors with a broad diversification across geographies, financing stages and investment types, while using Partners Group's relative value investment approach to systematically overweight those segments and investment types that offer superior value at a given point in time, in order to significantly enhance returns. Its legal structure allows investors to subscribe and redeem shares on a monthly basis, subject to restrictions as set out in the Fund's constituent documents. The Fund may hedge certain currency exposures to reduce the risk of foreign-exchange movements.

Additional AIFMD risk disclosures Leverage according to the gross method includes the nominal value of FX forward contracts used for hedging purposes.

Please be advised that we have introduced a new Growth classification, meant to cover Partners Group's investments in growth equity opportunities, which have been targeting sectors with high structural growth, including technology, tech-enabled companies, and healthcare. This strategy is primarily focused on identifying opportunities that offer substantial upside potential and downside protection, along with clear product market fit and defensible business models. It excludes early stage, and traditional venture capital investments.
